

## Speech Solutions that Work™

### Innovative Software for Common Tasks

#### Office Solutions, Speech and Language Processing, Multimedia Presentations

**Command!™**

### Make your software work together™

#### Command!™ is workflow automation “in a box”:

- Related files processed as “job” on “workflow”
- Open, saves, tracks, and retrieves files
- Supports text, audio, video, graphics, and almost any file type
- Use on local or wide area network
- Web services available
- Use with advanced speech processing, telephony, and other applications
- Advanced Help SDK available
- Use with Microsoft office software, other leading software programs
- Distributed with free database engine
- Use independently or as accessory system for other workflow managers

#### Command!™ is easy to use:

- Same interface for all users
- Simple choices: “New Job,” “Select Job,” or “Work Queue”
- Use with preexisting software—save on software replacement and training costs
- Intuitive PathPerfect™ graphical interface for workflow design
- Script Tool™ macro editor writes simple programming code for you
- Advanced scripting interface included also

#### Command!™ is modular, flexible, and scalable:

- Create workflows for 1 to 1,000 or more users
- Multiple versions, add-ins, servers, and administrators
- Many different uses in manufacturing, business, professions, other fields
- Integrate Command!™ with preexisting systems

#### Versions:

- Workstation—primarily client
- Professional—client with increased administrator features
- Enterprise—single client license with complete administrator features, servers
- Command!™ web application—available as add-on

#### Database

- Desktop database engine included FREE
- Ideal for home office or small business
- Open architecture
- ODBC compliant
