

Speech Solutions that Work™**Innovative Software for Common Tasks****Office Solutions, Speech and Language Processing, Multimedia Presentations****MacroBLASTER™****Versatile Macro Recorder****Use with programmable keypad, bar code, or speech recognition.****Automate daily routines with macros:**

- Avoid retyping the same word, phrase, number, or other key sequence
- *A tremendous time saver!*
- Use single keystroke to launch simple or complex PC operations
- Activate simple keyboard shortcuts
- Combine macro trigger techniques – e.g., combine speech with bar code and physical keypad
- Execute complicated, multi-step commands
- Start and exit from programs, including email clients
- Capture menu selections
- Format documents
- Paste clipboard text into active window
- Open documents in their native application
- Load templates
- Automatically print, save, and copy files—text, spreadsheets, and more
- Process audio, video, and graphics files
- Simplify macro creation for speech recognition, bar code, and other applications
- Use the same macro recorder for all your needs
- Don't need to learn special macro techniques, e.g., for speech recognition or other applications

Basic features of this practical macro editor include:

- Optimized for Windows 2000/XP
- Application includes grid user interface—assign functions to particular “key”
- Easily assign macros to keys with easy-to-follow interface
- Create your own virtual keypad for use with speech recognition, bar code, or keyboard input
- Create macros without being a programmer
- Select desired function from options, macro editor writes script for you
- Script editor available for more advanced macro scripting
- Store macros for multiple software programs in the same layout—up to 324 keys per layout
- Unlimited number of layouts

Use with programmable keypad or “virtual” keypad activated by bar code or voice:

- Combine physical and virtual keypads in the same layout
- Activate same key position from physical or virtual keypad
- Integrate with Command!™ workflow manager for macro control of workflow
- Use with keypads with number of keys
- Label keys for customization and ease of use
- Open and exit jobs or other process with single keystroke, barcode scan, or voice command
